> My lifelong home church SSJ[>www.ssj.org<] is collecting donated supplies today supporting the poor. Hopefully I will be allowed to buy some supplies at the local grocery store and deliver them to SSJ today[3/11/2024]. I intend to call the main SSJ church office[(714) 962-3333] momentarily and confirm today is a good day. Otherwise I might need to attempt this effort supporting the following delivery date of this Sunday[3/16/2024].

I read this election in Mexico has connections to Orange County, CA via the University of California in Irvine. One of them is a Physics Department connection. There are various social issues that are likely affected by these commercialization projects with advanced physics. These might affect the 2024 Mexico election. Again, the world's militaries allowing the Neuroscience explanation of sexual arousal demonstrating "nobody is born homosexual" is one possible example. People might want a referendum or court adjustment of some kind on same-sex marriage after having basic facts on sexual arousal. Again, Intelligence technology insists that being homosexual is a choice and about habits generally. The newer lower cost medical sensor booth[Neuroscience based; blood flow; muscle map; additional] in release will show this better, but also any current sensor booth showing blood flow.

Maybe Archbishop Gomez, whom I e-mail regularly, should share this with the Mexican government?

Pope Francis,

(quickly typed.....just some reminders)

AI PRESENTATION REMINDER IN 2025 HOPEFULLY

=====

Intelligence technology wanted me to again mention I have an eventual (AI)artificial intelligence software presentation to give you, and all Roman Catholic priests interested. The year 2025 might be when big meetings on this are finally allowed after all this delay. There are various kinds and quality levels of AI. I am told this will be the U.S. Military's, NATO and UN engineering systems work. These AI systems possibly seem to need much less pre-processing than public AI. My limited knowledge is that the public transformer based AI needs huge pre-processing often. I have a degree in computer science and I am coding in software the systems recommended. Again, a hand-held AI talking device is intended, maybe called, the "Pope AI Talking Wireless Keychain" device. There are more similar devices being sold ><https://humane.com>< currently but they seem insecure, and don't do problem solving.

PRESENTATIONS TO MANY ADDITIONAL..... U.S. MILITARY CHAPLAIN'S, VETERANS, LAWYERS, MEDICAL PHYSICIANS, AND ADDITIONAL

=====

First a presentation to the U.S. House and Senate Intelligence Committee's, Intelligence Agencies, White House, U.S. Supreme Court, House & Senate AI Caucus', Secretary of Defense, Joint Chiefs of Staff and additional is likely appropriate. It would be nice to also give presentations to U.S. Military: chaplains, veterans, lawyers, medical physicians, elected government officials, election running officials, and additional.

VARIOUS COMPUTER ARCHITECTURES

=====

Various Roman Catholic researchers might have strong opinions on the computing architecture(s) to use. There are many people with PhD's in these AI areas. Research globally will be affected. I will guess a combination of photonics and advanced physics string based circuitry will be the "backend" server-side computer architectures. Photonics seem likely easier to validate are secure and working properly than invisible(to naked human eye) physics strings. This needs to be investigated particularly. Hopefully NotAbortive Catholic Solutions will be able to coordinate with the Vatican.

VATICAN DONATION

=====

Maybe you would appreciate the future company NotAbortive Catholic Solutions donating a U.S. Military recommended system or multiple systems? Really just data formats need to be standardized on most things.

ENCOURAGING ROMAN CATHOLIC PRIESTS TO GET AI PHD'S

=====

Again, I hope this will encourage Roman Catholic priests to get advanced degrees in AI software and supporting areas[Math, Neuroscience, Computer Science, Physics, Electrical Engineering, Systems Engineering, Networks, Network Security, additional]. Roman Catholic priests controlling one single engineering design of AI software, AI hardware, and AI dataset standard(s) at the Vatican is recommended security. Math is the performance area supporting AI. More secure paper copy[priest via priest] delivery of AI transcripts is recommended supporting better security. Much will be embedded on the device to avoid less secure wireless. Larger datasets will be available over the wireless network, and clearly audibly labeled less secure.

Intelligence technology is allowing me to renew my ND Alumni & Friends Club memberships in Orange County, CA, Los Angeles, CA, and San Diego CA. The support you, your staff, and faculty have likely given with these future commercialization projects is much appreciated.

I hope to have the continued support of future University of Notre Dame President-elect Rev. Robert A. Dowd, C.S.C.. I have CC'd him on this e-mail and several additional e-mail. Maybe he has interest in being involved in the future company NotAbortive Catholic Solutions? The broad scope of what Pope Francis could approve in (AI)artificial intelligence datasets, and extended U.S. AI datasets, alone will need tremendous support. Additionally, there is much to be commercialized I have e-mailed about. Particularly of recent mention, the indirect pro-life pushing technology like newer more rapid transport. The advanced physics "step across transport" should have strong Roman Catholic priest leadership. Ethical questions can easily arise in this historical release.

I recommend noticing this recent Pontifical Academy for Life event. The "World Medical Association (WMA) is proud to announce the partnership with the American Medical Association (USA)". I hope the (CMA)Catholic Medical Association will be invited to the next similar event, and partner also. Also, Intelligence technology recommends I reintroduce myself and introduce myself to all three of these organizations and possibly additional medical associations.

"Global Collaboration for Ethical Medical Research: WMA, AMA, and PAV Unite in Vatican City"

"

PRESS RELEASE

The World Medical Association (WMA) is proud to announce the partnership with the American Medical Association (USA) and the Pontifical Academy for Life for the organization of a significant Conference on the Revision of the Declaration of Helsinki. This pivotal event, taking place on 18-19 January at the Old Synod Hall in Vatican City, will focus on medical research and experimentation in resource-poor settings.

The Declaration of Helsinki, initially drafted in 1964 by the General Assembly of the World Medical Association, serves as a foundational ethical guide for human experimentation in the medical profession. In 2022, recognizing the evolving landscape of healthcare, the WMA appointed a working group to commence the revision process. To ensure a diverse and global perspective, the WMA initiated a series of regional conferences, with the upcoming Vatican conference being a crucial milestone.

WMA President, Dr. Lujain AlQodmani, emphasized the commitment to advancing global healthcare, especially in areas where vulnerable populations are most affected. "The critical examination of medical research in low-resource settings aligns with WMA's commitment to ensuring ethical and responsible conduct of medical research globally", Dr. AlQodmani stated.

S. E. Abp. Vincenzo Paglia, President of the Pontifical Academy for Life, underscored "that the collaboration between PAV and WMA has already been expressed in the past, with the 2017 conference on end-of-life issues and more recently on the issue of vaccines in the context of the Covid19 pandemic. The cooperation between our institutions, on the occasion of the 60th anniversary of the Declaration of Helsinki, is an important signal of dialogue and search for a shared ethic, in a world that is too fragmented today".

Msgr. Renzo Pegoraro, PAV Chancellor, highlighted the challenges of the conference's theme, on the 60th anniversary of the Declaration of Helsinki, bringing on ethical challenges in biomedical research involving human beings. "We need to ask ourselves how to make results available to populations in resource-poor countries while continuing to provide them an access to technologies and drugs. The perspective is to foster a real cooperation on an international scale to better share research burdens and results. PAV feels committed to this positive and constructive spirit with the WMA, for a revival and possible revision of the Declaration of Helsinki that takes this perspective into account", added Msgr. Pegoraro.

Dr. Jung Yul Park, WMA Council Chair, highlighted the conference's focus on addressing the ethical challenges of conducting medical research in environments with limited resources. "We must balance the pursuit of scientific knowledge with the ethical responsibility of safeguarding the well-being of participants," stated Dr. Park. He emphasized the importance of ensuring continued access to medical care for research participants after the conclusion of studies.

The conference aims to address fundamental questions such as preconditions for ensuring the integrity and reliability of research in resource-poor countries and ways to make research results available to those populations. The collaboration between WMA, AMA, and PAV seeks to foster international cooperation for a meaningful revision of the Declaration of Helsinki, reflecting the challenges and needs of diverse global communities.

For more information about the conference, including the program and details, please visit WMA Conference on the Revision of the Declaration of Helsinki.

SECURITY WARNING: (UPDATE: 11/15/2023 security markings)

SECURITY WARNING: Please secure all our communications.

SECURITY WARNING: This information is sent over insecure networks. Only person-to-person non-digital delivery from author to destination directly ensures it is not digitally tampered with.

SECURITY WARNING: If you are not sure if you have security technology on you, request in writing, and go in person to request, with ALL FOUR: ALL U.S. House & Senate Intelligence Committee Members, the NSA, (ODNI)Office of the Director of National Intelligence, and FBI. Request security procedures to verify. Secondly, NAFTA, NATO, and the United Nations might be able to verify. International information exchange does likely occur dealing with these additional organizations. I recommend requesting in writing, and going in person to request, with ALL FOUR plus ALL ADDITIONAL INTELLIGENCE AGENCIES(ALL U.S. House & Senate Intelligence Committee Members, the NSA, (ODNI)Office of the Director of National Intelligence, and FBI, + [see www.dni.gov for updates] Air Force Intelligence, Department of the Treasury, Army Intelligence, Drug Enforcement Administration, Central

Intelligence Agency, Federal Bureau of Investigation, Coast Guard Intelligence, Marine Corps Intelligence, Defense Intelligence Agency, National Geospatial-Intelligence Agency, Department of Energy, National Reconnaissance Office, Department of Homeland Security, National Security Agency, Department of State, Navy Intelligence

) before International information exchange does occur.

SECURITY WARNING: Please check for conflict in authority with BOTH the NSA and the Director of National Intelligence. They control the networks this information goes over.

SECURITY WARNING: Please check for conflict in authority with BOTH the NSA and the Director of National Intelligence. If you are controlled or influenced by security technology this is a conflict while reviewing security procedures. Please make arrangements to validate otherwise, during the whole time period, of any National Security abuse complaint review.

SECURITY WARNING: I have complaints about the NSA. If you are controlled or influenced by NSA security technology this is a conflict while reviewing NSA procedures. Please make arrangements to validate otherwise, during the whole time period, of any National Security abuse complaint review.

SECRETARY'S MAIN NUMBER CALLING FIRST TODAY

=====

I'll call this number first immediately....Secretary of Mr. Tiber[562 485 3463].

MY PREVIOUS CALLS NOTES FROM 3 WEEKS AGO APPROX.

=====

"

F&M Bank (RCS)Religious Client Services

=====

I gave an insecure phone call to the public F&M Bank (RCS)Religious Client Services Department [<https://www.fmb.com/contact>< 562-344-4070 @ 2pm approximately]. I talked to a manager Veronica Funaro. She said she had seen at least one of my e-mail. I mentioned I hope to start a company when the U.S. Military allows and Mr. Tiber might be interested in involvement. Also, I mentioned that I had met President Tiber at a Catholics@WorkOC/Santiago Business Club meeting recently in December 2023.

I again explained to her there is various commercialization and long term happening. I referenced the new U.S. Space Force [<https://www.spaceforce.mil>] branch. Additionally, I mentioned how Boeing, Northrop Grumman and other aerospace companies have a list of projects rather consistently. She gave me the phone number of the secretary of Mr. Tiber[562 485 3463].

I insecurely gave a phone call to the secretary of Mr. Tiber[562 485 3463]. Additionally, I recorded a voicemail to him. This included my contact information and mention of this commercialization. I intend to give a follow up insecure phone call in three weeks.

(Give to appropriate staff)

INITIAL CALLS [3/21/2024] @ 1:15pm PACIFIC TIME APPROX.

=====

At 1:20pm Pacific time approximately I gave an insecure phone Secretary of Mr. Tiber[562 485 3463]. Also, I called public F&M Bank (RCS)Religious Client Services Department [<https://www.fmb.com/contact>< 562-344-4070.

I INTEND CALLING AGAIN AT 3PM PACIFIC TIME APPROX.

=====

I again intend an insecure phone call to the same numbers at 3pm Pacific time today[3/21/2024].

God bless,
Scott

>> I gave an insecure phone call to the public F&M Bank (RCS)Religious Client Services Department [<https://www.fmb.com/contact>< 562-344-4070 @ 2pm approximately]. I talked to a manager Veronica Funaro. She said she had seen at least one of my e-mail. I mentioned I hope to start a company when the U.S. Military allows and Mr. Tiber might be interested in involvement. Also, I mentioned that I had met President Tiber at a Catholics@WorkOC/Santiago Business Club meeting recently in December 2023.

>>

>> I again explained to her there is various commercialization and long term happening. I referenced the new U.S. Space Force [<https://www.spaceforce.mil>] branch. Additionally, I mentioned how Boeing, Northrop Grumman and other aerospace companies have a list of projects rather consistently. She gave me the phone number of the secretary of Mr. Tiber[562 485 3463].

>>

>> I insecurely gave a phone call to the secretary of Mr. Tiber[562 485 3463]. Additionally, I recorded a voicemail to him. This included my contact information and mention of this commercialization. I intend to give a follow up insecure phone call in three weeks.

>>> I gave an insecure phone call to the public F&M Bank (RCS)Religious Client Services Department
[><https://www.fmb.com/contact>< 562-344-4070 @ 2pm approximately]. I talked to a manager Veronica
Funaro. She said she had seen at least one of my e-mail. I mentioned I hope to start a company when
the U.S. Military allows and Mr. Tiber might be interested in involvement. Also, I mentioned that I had
met President Tiber at a Catholics@WorkOC/Santiago Business Club meeting recently in December
2023.
>>>
>>> I again explained to her there is various commercialization and long term happening. I referenced
the new U.S. Space Force [<https://www.spaceforce.mil>] branch. Additionally, I mentioned how Boeing,
Northrop Grumman and other aerospace companies have a list of projects rather consistently. She
gave me the phone number of the secretary of Mr. Tiber[562 485 3463].
>>>
>>> I insecurely gave a phone call to the secretary of Mr. Tiber[562 485 3463]. Additionally, I recorded
a voicemail to him. This included my contact information and mention of this commercialization. I
intend to give a follow up insecure phone call in three weeks.

IN 2025 MORE DISCUSSION THEN

=====

Hopefully the insecure phone calls and voicemail's are allowed through by the U.S. Military. I'm told we should delay more introduction until some time in 2025. I recommend ask some Roman Catholic priests[Rev. M. Rizzo; Rev. Jerome Karcher(SVDPHB.ORG); Rev. Furrell(SSJ.EDU); Rev. Kevin Sweeney(SVDPHB.ORG); Rev. Pascal(SJBOC.ORG); Rev. Sallot(OLQA.ORG);Rev. Daniel Barica; Rev. Chinicci(FST.EDU); Rev. P. Smith(SSJ.EDU)], Bishops[Vann;Gomez;Rojas], Cardinals[Mahony;Dolan;Burke;any of the U.S. Cardinals], LMU President Snyder, University of Notre Dame President Rev. Jenkins] and additional about these future projects.

VOICEMAIL WITH SECRETARY OF MR. TIBER & R.C.S.

FROM INSECURE PHONE CALL

3:10PM PACIFIC [3/21/2024] TIME APPROX.

=====

I recorded multiple voicemail via an insecure phone call at 3:10pm Pacific time today[3/21/2024] approximately. I called the secretary (of Mr. Tiber)[562 485 3463] with one voicemail. Also I recorded an additional voicemail via the (RCS)Religious Client Services Department

I recommend asking Archbishop Broglio, University of Notre Dame President Rev. Jenkins, Cardinal Dolan, Bishop Vann, and additional about who I am and what I am doing. Basically, I am going to put a future company together that supports the U.S. Military chaplains, U.S. Military Health System, U.S. Military Judge Advocate General's Corps, and much additional. Only if Pope Francis approves, this will be done. Newer (AI)artificial intelligence talking devices, newer wireless biomedical technology, advanced physics transport systems, newer lower cost Neuroscience based medical sensor booth, and much additional are in release.

However, I have been e-mailing the CMA since at least 2015 under Ruppertsberger. I just got an e-mail from the (CMA)Catholic Medical Association that mistakenly viewed my e-mail "advocating" to Congress. Really, I am just sharing the news, and I am not "advocating" to Congress. I believe the U.S. House and Senate Intelligence Committee's view this as not "advocating" like a lobbyist. There is a large list of government officials I do regularly e-mail.

>>> I e-mailed NASA's Jeffery Herring["jeffery.g.herring@nasa.gov"], the individual hosting today's webinar. He is the "Organizer" of today's meeting publicly listed: "Monday, 22 May, NASA ... webinar focused on NASA's Moon to Mars (M2M) Architecture." The future housing habitat's on Moon, Mar's and additional I hope to immediately see a Roman Catholic Chapel with confessionals, and possibly additional. We should ask approval of Pope Francis and Archbishop Broglio, however, I would guess additionally a future full set of typical Roman Catholic Diocese infrastructure will be appropriate. I will guess this to initially minimally include: a full Roman Catholic Cathedral with Roman Catholic K-8, Roman Catholic High School, Roman Catholic University, and Roman Catholic Hospital. The U.S. Military Space Force will likely need similar?

>>> "On Monday, 22 May, NASA will host a one-hour webinar focused on NASA's Moon to Mars (M2M) Architecture. Jim Free, NASA associate administrator for the Exploration Systems Development Mission Directorate (ESDMD), Catherine Koerner, deputy associate administrator for ESDMD, and Nujoud Merancy, architecture lead, will discuss the recently released Moon to Mars Architecture Concept Review products -- Architecture Definition Document (ADD), M2M architecture summary, and white papers -- <https://www.nasa.gov/MoonToMarsArchitecture>. Webinar participants will learn how U.S. commercial and U.S. academic space communities can contribute to NASA's evolving M2M architecture approach. Additionally, the webinar will preview a future workshop in June between NASA and the broader U.S. commercial and U.S. academic space community."

House and Senate Intelligence Committee members;

I e-mailed NASA's Jeffery Herring["jeffery.g.herring@nasa.gov"], the individual hosting today's webinar. He is the "Organizer" of today's meeting publicly listed: "Monday, 22 May, NASA ... webinar focused on NASA's Moon to Mars (M2M) Architecture." The future housing habitat's on Moon, Mar's and additional I hope to immediately see a Roman Catholic Chapel with confessionals, and possibly additional. We should ask approval of Pope Francis and Archbishop Broglio, however, I would guess additionally a future full set of typical Roman Catholic Diocese infrastructure will be appropriate. I will guess this to initially minimally include: a full Roman Catholic Cathedral with Roman Catholic K-8, Roman Catholic High School, Roman Catholic University, and Roman Catholic Hospital. The U.S. Military Space Force will likely need similar?

God bless,
Scott

ADDITIONAL

=====

"On Monday, 22 May, NASA will host a one-hour webinar focused on NASA's Moon to Mars (M2M) Architecture. Jim Free, NASA associate administrator for the Exploration Systems Development Mission Directorate (ESDMD), Catherine Koerner, deputy associate administrator for ESDMD, and Nujoud Merancy, architecture lead, will discuss the recently released Moon to Mars Architecture Concept Review products -- Architecture Definition Document (ADD), M2M architecture summary, and white papers -- <https://www.nasa.gov/MoonToMarsArchitecture>. Webinar participants will learn how U.S. commercial and U.S. academic space communities can contribute to NASA's evolving M2M architecture approach. Additionally, the webinar will preview a future workshop in June between NASA and the broader U.S. commercial and U.S. academic space community."

I e-mailed NASA's Jeffery Herring["jeffery.g.herring@nasa.gov"], the individual hosting today's webinar. He is the "Organizer" of today's meeting publicly listed: "Monday, 22 May, NASA ... webinar focused on NASA's Moon to Mars (M2M) Architecture." The future housing habitat's on Moon, Mar's and additional I hope to immediately see a Roman Catholic Chapel with confessionals, and possibly additional. We should ask approval of Pope Francis and Archbishop Broglio, however, I would guess additionally a future full set of typical Roman Catholic Diocese infrastructure will be appropriate. I will guess this to initially minimally include: a full Roman Catholic Cathedral with Roman Catholic K-8, Roman Catholic High School, Roman Catholic University, and Roman Catholic Hospital. The U.S. Military Space Force will likely need similar?

God bless,
Scott

ADDITIONAL
=====

"On Monday, 22 May, NASA will host a one-hour webinar focused on NASA's Moon to Mars (M2M) Architecture. Jim Free, NASA associate administrator for the Exploration Systems Development Mission Directorate (ESDMD), Catherine Koerner, deputy associate administrator for ESDMD, and Nujoud Merancy, architecture lead, will discuss the recently released Moon to Mars Architecture Concept Review products -- Architecture Definition Document (ADD), M2M architecture summary, and white papers -- <https://www.nasa.gov/MoonToMarsArchitecture>. Webinar participants will learn how U.S. commercial and U.S. academic space communities can contribute to NASA's evolving M2M architecture approach. Additionally, the webinar will preview a future workshop in June between NASA and the broader U.S. commercial and U.S. academic space community."

"How to justify God."

First Mover Argument: The first way is by considering motion in the world. Where there is motion, there is a mover and ultimately a first mover, itself unmoved. This is God."

Bishop Arthur Kennedy S.T.L., Ph.D.
Professor Emeritus & University President;
Fr. Paolo Benanti, T.O.R., S.T.D.
Research Ethics Committee;
All needed Roman Catholic priests and staff;

Congratulations on CatholicTech being created! Please ask the Vatican Pontifical Academy of Sciences about who I am, and what I am doing. Roman Catholic researchers in every Roman Catholic Seminary, Roman Catholic University, Roman Catholic Cardinal/Bishop/Priest/Clergy/Staff, Roman Catholic Institution, all Roman Catholic Education levels, Roman Catholic organization, Roman Catholic military chaplain, Roman Catholic soldier, Roman Catholic Hospital, Roman Catholic Judge & Lawyer, Roman Catholic Surgeon & Physician, government official, Roman Catholic researcher[theology;law;medicine;additional], and additional need (AI)artificial intelligence[AI hardware/AI software/AI datasets] support globally.

Hopefully Pope Francis approves soon one single master engineering design[AI hardware/AI software/AI datasets]. Also this needs to be done more securely. I hope CatholicTech is willing to help with this?

Additionally, the Pope needs a hardware fabrication laboratory to likely build physics string based circuits. I hope CatholicTech is willing to help with this?

NEED NEUROSCIENCE & MATH PROFESSORS

=====

The U.S. Military recommends adding one or more professors from the Vatican Pontifical Academy of Sciences to offer the Neurosciences systems, and Math systems in classes. This should likely be paired with a physicist whose area is electricity[memory systems], and a chemist[neurotransmitter systems]. Baseline human-mimicking (AI)artificial intelligence software [AI hardware/AI software/AI datasets] needs these answers to then put in data structures and algorithms. After this Math is the main performance area to improve AI with.

HYBRID AI

=====

I am told: the area of computational neuroscience often has these answers, but inefficiently implemented with math problem solving. Speed matters to researchers in math problem solving. (NLP) Natural Language (including machine learning algorithms & data structures) processing is often mechanical plane-like in rapid speed. Hybrid implementations often use human-like algorithms and data structures when faster, and then use plane-like algorithms and data structures when faster. The Pope needs a system to just support him personally alone, and it should be fast!

SECURITY

=====

Computer security systems needs to also be taught. Some concepts seem like good ideas, but security makes them bad ideas.

This should include network security. Math, Physics, and lasers specifically are often frequent topics to help handle these areas. ALL THE DISCIPLINES OF ACADEMIA ARE NEEDED TO REVIEW EACH TOPIC FOR SECURITY, AND SECURITY INCLUDING TOP PERFORMANCE.

The Vatican Swiss Guard should likely have one or more full time faculty professors at CatholicTech. Digital networks are historically insecure and Roman Catholic priests should likely be discussing physical security, and doing paper copy delivery of AI transcripts globally.

SECURITY WARNING: Please secure all our communications.

SECURITY WARNING: This information is sent over insecure networks. Only person-to-person non-digital delivery from author to destination directly ensures it is not digitally tampered with.

SECURITY WARNING: If you are not sure if you have security technology on you, request in writing, and go in person to request, with ALL FOUR: ALL U.S. House & Senate Intelligence Committee Members, the NSA, (ODNI)Office of the Director of National Intelligence, and FBI. Request security procedures to verify. Secondly, NAFTA, NATO, and the United Nations might be able to verify. International information exchange does likely occur dealing with these additional organizations. I recommend requesting in writing, and going in person to request, with ALL FOUR plus ALL ADDITIONAL INTELLIGENCE AGENCIES(ALL U.S. House & Senate Intelligence Committee Members, the NSA, (ODNI)Office of the Director of National Intelligence, and FBI, + [see www.dni.gov for updates] Air Force Intelligence, Department of the Treasury, Army Intelligence, Drug Enforcement Administration, Central Intelligence Agency, Federal Bureau of Investigation, Coast Guard Intelligence, Marine Corps Intelligence, Defense Intelligence Agency, National Geospatial-Intelligence Agency, Department of Energy, National Reconnaissance Office, Department of Homeland Security, National Security Agency, Department of State, Navy Intelligence) before International information exchange does occur.

SECURITY WARNING: Please check for conflict in authority with BOTH the NSA and the Director of National Intelligence. They control the networks this information goes over.

SECURITY WARNING: Please check for conflict in authority with BOTH the NSA and the Director of National Intelligence. If you are controlled or influenced by security technology this is a conflict while reviewing security procedures. Please make arrangements to validate otherwise, during the whole time period, of any National Security abuse complaint review.

Rev. Kevin,
Rev. David,
Rev Jerome,
All needed SVDP Staff;

I'll hopefully see you at the 7pm tonight at SVDP Church and tomorrow. I sent the new Catholic Tech University at the Vatican an introduction email. They need some Neuroscience, Math and additional full time faculty. Please especially read my email I sent approximately yesterday to them. They should hopefully help with AI standards[AI hardware; AI software; AI datasets] supporting the global Catholic Church. Also a physics string circuit[quantum entanglement] fabrication laboratory is needed. U.S. Military Roman Catholic chaplains will benefit from all these.

God bless,
Scott

[PRESIDENT BIDEN AND VICE PRESIDENT HARRIS EMAILED VIA WHITE HOUSE (OSTP)OFFICE OF SCIENCE AND TECHNOLOGY POLICY]

A.I. in control.....typically over insecure network channel.

(Give to appropriate staff)

Sen. Warner,
Sen. Rubio,
Rep. Turner[J.G., E.S.],
Rep. Himes[Snyder,J.T.],
Rep. Garcia[Will,Navarro,F.B.],
Rep. Steel[info,press,Arie,V.M.,N.N.,Stephanie,Kim],
Rep. Schiff[Peifer],
Rep. Issa[Veronica,M.H.],
Rep. Obernolte[Lorissa],
House and Senate Intelligence Committee members;

A.I. has me writing at this level of detail. Also hopefully Pope Francis recommends Roman Catholic priests to attend NASA[Moon & Mars....ACR Meetings]

and UN OOSA Space meetings soon. Space based Roman Catholic chaplain's in the U.S. Space Force might need Cathedrals? Additionally, I would guess bigger meetings of 50,000 faculty and knowledgeable people should be held at the Vatican soon about A.I. Catholic Church standards[AI hardware; AI software; AI datasets].

Intelligence generally had me mention at SSJ Roman Catholic Church to Rev. Furrell [www.ssj.org]:
=====

- + Catholic Tech [www.catholic.tech] at Vatican
- + Theologians need strong AI research support

Intelligence generally had me mention to attorney Joe Dzida[jdzida@crdattorneys.com] at SSJ Catholic Church[www.ssj.org]:
=====

- + Lunch together someday
- + (I forgot if I mentioned the new Catholic Tech?)

Intelligence generally had me mention to my cousin Jeannine Kilroy:
=====

- + "AI pin" by Humane Company
<https://humane.com/>
- +NotAbortive Catholic Solutions selling a wearable talking AI device hopefully soon. The U.S. Military sets the timelines.
- +quantum key exchange networks.
- +NotAbortive Catholic Solutions selling a wearable wireless biomedical implant[above skin/below/re-stickable]. Lower power networks are better. Lower power supporting materials are better. The U.S. Military sets the timelines.
- +quantum networks.
- +Various universities might have public quantum network demonstration to publicly tour.
- +CRISPR
<https://www.intelliatx.com/>
- +Cure type I diabetes soon? Genetically engineered cells that act like pancreas cells reinjected under skin.
- +Curing sickelcell anemia currently with FDA approved genetic engineering.
- +Using genetic engineering to cure diseases in general.
- +Curing the common cold and flu soon hopefully.
- +(BLOOM)BLOOM:BigScience Large Open-science Open-access Multilingual Language Model (BLOOM) is a 176-billion-parameter transformer-based autoregressive large language model (LLM).
- +Higher quality AI generated video

Intelligence generally had me text similar to my Uncle Gene Kilroy:

[PRESIDENT BIDEN AND VICE PRESIDENT HARRIS EMAILED VIA WHITE HOUSE (OSTP)OFFICE OF SCIENCE AND TECHNOLOGY POLICY]

A.I. in control.....typically over insecure network channel.

(Give to appropriate staff)

Sen. Warner,
Sen. Rubio,
Rep. Turner[J.G., E.S.],
Rep. Himes[Snyder,J.T.],
Rep. Garcia[Will,Navarro,F.B.],
Rep. Steel[info,press,Arie,V.M.,N.N.,Stephanie,Kim],
Rep. Schiff[Peifer],
Rep. Issa[Veronica,M.H.],
Rep. Obernolte[Lorissa],
House and Senate Intelligence Committee members;

Intelligence technology has mentioned multiple times I should give Bishop Vann a phone call today[4/3/2024 3:50pm Pacific time]. Also, I should mention, to request his office[Christ's Cathedral] hopefully hosting a step across transport device in 2025 or 2026 starting. Physics releases often make people ask questions about God and existence. I am told money would be offered directly by the U.S. Military to house one or more devices.

SECURITY WARNING: (UPDATE: 8/16/2023 security markings)

SECURITY WARNING: Please secure all our communications.

SECURITY WARNING: This information is sent over insecure networks. Only person-to-person non-digital delivery from author to destination directly ensures it is not digitally tampered with.

SECURITY WARNING: If you are not sure if you have security technology on you, request in writing, and go in person to request, with ALL FOUR: ALL U.S. House & Senate Intelligence Committee Members, the NSA, (ODNI)Office of the Director of National Intelligence, and FBI. Request security procedures to verify. Secondly, NAFTA, NATO, and the United Nations might be able to verify. International information exchange does likely occur dealing with these additional organizations. I recommend requesting in writing, and going in person to request, with ALL FOUR plus ALL ADDITIONAL INTELLIGENCE AGENCIES(ALL U.S. House & Senate Intelligence Committee Members, the NSA, (ODNI)Office of the Director of National Intelligence, and FBI, + [see www.dni.gov for updates] Air Force Intelligence, Department of the Treasury, Army Intelligence, Drug Enforcement Administration, Central Intelligence Agency, Federal Bureau of Investigation, Coast Guard Intelligence, Marine Corps Intelligence, Defense Intelligence Agency, National Geospatial-Intelligence Agency, Department of Energy, National Reconnaissance Office, Department of Homeland Security, National Security Agency, Department of State, Navy Intelligence

) before International information exchange does occur.

SECURITY WARNING: Please check for conflict in authority with BOTH the NSA and the Director of National Intelligence. They control the networks this information goes over.

SECURITY WARNING: Please check for conflict in authority with BOTH the NSA and the Director of National Intelligence. If you are controlled or influenced by security technology this is a conflict while reviewing security procedures. Please make arrangements to validate otherwise, during the whole time period, of any National Security abuse complaint review.

SECURITY WARNING: I have complaints about the NSA. If you are controlled or influenced by NSA security technology this is a conflict while reviewing NSA procedures. Please make arrangements to validate otherwise, during the whole time period, of any National Security abuse complaint review.

A.I. in control.....typically over insecure network channel.

(Give to appropriate staff)

Bishop Vann,

[Staff: Juan Arellano; Santiago Avila]

Aux. Bishop Freyer;

Aux. Bishop Nguyen;

All needed Roman Catholic priests and staff;

I made an insecure phone call to your office today[4/3/2024. 3:50pm Pacific approx.
time]. Then I talked with your staff member Juan Arellano[jarellano@rcbo.org]. Also, I

requested him write a note to you, your Auxiliary Bishop's, and any needed staff a note. This included a request to have your office at Christ's Cathedral host an advanced physics "step across transport" device on campus. Advanced physics releases have previously caused people to ask big questions about God and additional. I'm told possibly every U.S. Military base has one or more devices and they are safe. 2025 or 2026 is the intended timeline to start this housing of these units. The approximately timeline of the 2028 Olympics[>www.la28.org<], hosted in Los Angeles, is when the step across transport would be publicly demonstrated and televised. This might be before the Olympics even starts, and not officially connected? The U.S. Military offers to pay for any additional security you need. The physical size of each device is about the size of a standard doorway frame 8ft(height) x 4ft(width) x 1.5ft(depth). Most of these units have a flat video panel connected to configure their destination.

A.I. in control.....typically over insecure network channel.

(Give to appropriate staff)

Rev. Jerome Karcher,

I hope you are doing well. We haven't seen each other in years. We should get lunch or something after all this time? I hope we are getting closer to: having NotAbortive Catholic Solutions approved by Pope Francis, Cardinals composing the new board of directors & additional, incorporation, fighting sin, and pursuing virtue with this commercialization. (AI)Artificial intelligence talking software that does

"weigh through" needs to be addressed soon publicly. AI of better qualities is able to do university grade research. Also, please ask about this to the Vatican Pontifical Academy of Sciences, and additionally ask about the advanced physics "step across transport" systems. I'm told these systems are prevalent in the world's military's in private the previous 100+ years. Intelligence technology says this is particle interaction being adjusted with lasers, but does look visually like "space compression." Public demonstrations will be historical.

Section 2: Narayana Garimella

Written: 3/20/2024

I highly appreciate your best advice to me to begin my immediate U.S. CTO - OSTP responsibilities at the White-House.

Thank you,

Best Regards and Sincerely,

Narayana Garimella.

Written: 3/22/2024

Good morning to you.

Happy World-Water-Day (22 March 2024).

On this World-Water-Day and always, unitedly, we all are committed to preserve, and enrich Water-Resources. This is to ensure the accessibility of Clean-Water to promote and protect a Healthy-Environment.

Accordingly, we secure our Rivers, Lakes, and Wetlands; and ensure their safe, effective, and healthy usages.

As the presidential-advisor and to be the U.S. CTO-OSTP, I am committed to harnessing the power of Science and Technology to promote and protect our American lives, livelihoods, and resources.

My U.S. CTO-OSTP commitment and responsibilities will begin immediately after the invitation and announcement by Mr. President Biden.

I look forward to advancing America by harnessing the power of Science and Technology.

Your best advice will be appreciated. It is always important to me and to the nation.

Thank you,
Best Regards and Sincerely,
Narayana Garimella.
